

PUL Tech Asa + Yale + Sistrunck

Expressive structure in relation to topography creates an open learning environment for the Pontotoc-Union-Lee Educational Academy. This design aims to be inspirational to students in the hope of creating a desire to learn.

Bell + Young + Fuentes + Jenkins

The building design is integrated into the site, and incorporates the use of cantilevers, not only for its dynamic appeal but also as a means to promote interaction on the exterior...The objective was to keep the building open to the surrounding landscape while providing protection from the sun

Blakeney + McCullough + Dorris + Hegler

The goal of our project is to set up a space that allows the full process of observation to occur. The space will provide an interactive environment that will engage impulses and desires for gaining experiences while providing reflection spaces to complete the observation process.
